

With MB Boda Reinsurance, Your

PROGRESS is REASSURED

A NAME OF REPUTE

IN INDIA'S REINSURANCE ARENA

M.B. Boda, licensed and operating currently as M.B. Boda Reinsurance Brokers Pvt Ltd (MBB), was established in the year 1955, on the solid foundation laid by its dynamic leader and founder the Late Mr. M.B. Boda. The Company is professionally managed by a team of technically competent executives. Today, MBB as a Broking House stands tall in the Indian Reinsurance Sector with a legacy of its longstanding local and global presence, offering a host of specialized and customizable services.

Our Mission

is to keep re-inventing ourselves to match and exceed evolving re-insurance needs. To be the first name in the client's mind for reinsurance and broking services. Providing unparalleled transparency in operations and client satisfaction.

REINSURANCE SERVICES

(LIFE & NON-LIFE)

The Facultative Reinsurance services offered by us pave the way for continuous connectivity with insurers in ensuring acceptance of risks in growing environment, even while limiting excessive volatility from individual Policy Coverage.

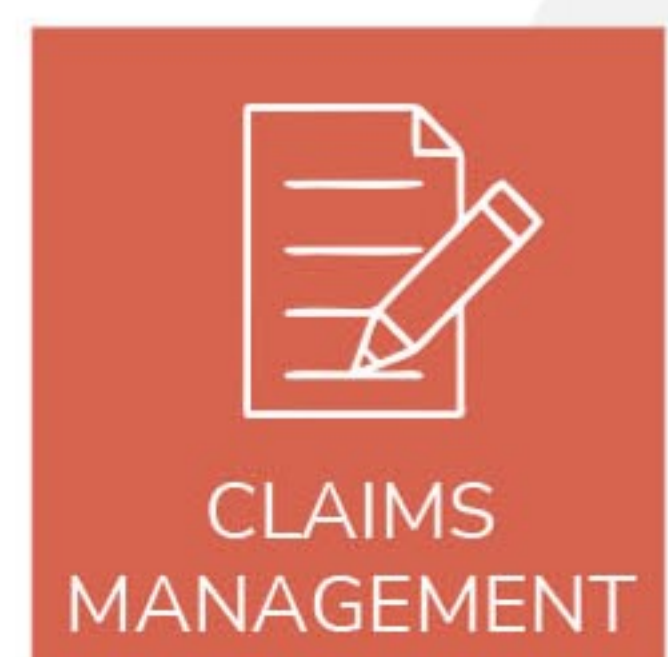

Treaty reinsurances can be in the form of either proportional or non-proportional treaty reinsurance. In simple terms, the proportional treaties are intended to provide capacity while the non-proportional ones are designed to protect the risks retained by the reinsured entity. At M.B. Boda, we provide the most common forms of proportional treaties, which include Quota Share, Surplus, and Facultative Obligatory treaties. For non-proportional types, the principal types include Risk Excess of Loss, Catastrophe Excess of Loss, and Aggregate Excess of Loss treaties.

At M. B.Boda, we deliver exceptional transparency and cooperation, building strategies that focus on our clients' key objectives. We even provide solutions for stop-loss cover, retrocession, and excess of loss coverage.

Currently, Cat Modelling is a prevalent practice in the global insurance and reinsurance industry to calculate losses for events such as earthquakes, cyclones, and floods. M. B. BODA remains in touch with various modelling companies through in-person meetings and webinars to know their products, as well as to keep them updated about the prevalent practices in the industry. Currently, we have business relationships with all lead modellers and can carry out Cat Modelling for our clients located in different geographical territories.

Our team of highly specialized experts is always on the ball to assist our clients, by recommending loss adjusters, negotiating in the best interest of all parties, mediating & arbitrating the cause/quantum of the loss, and controlling the collection process.
